Major Conrad Flapps

"Splendid family entertainment." *CBC*

The Flying Show

The warmth, wit and contagious energy of clown aviator, Major Conrad Flapps has charmed audiences in seven countries. As the world's only "human airplane", Flapps enlists audience volunteers as his flight crew on stage with disastrous comic results!

Entangled flying scarves, flipping propellers and human gas tanks all add up to the funniest lesson in world geography and multi-culturalism you'll ever have.

Blending dynamic fiddling and song to the physical comedy, Flapps calls Sit Down Square Dances for the entire audience,

creates Celtic River Dance contests and World Music parodies that all add up to "splendid family entertainment." *CBC*. He has united the whole world in laughter for over 25 years.
